An Animal Alphabet Emery Westfall 2021-06-11

Did you know that an octopus has 3 hearts; or, that an elephant has 40,000 muscles in its trunk; or, that a herd of black rhinoceros is called a "crash"? Those little known facts, plus others, are in the *Animal Alphabet* book. You'll find them inserted in a bit of poetry and an assortment of 26 animals and a few other things in this carefully researched, sometimes word-bending children's/parents' book. It is a significant cross-over departure from the usual ABC approach. The concept of the book is simple, give them something so they react, I didn't know that," or with a smile and laugh-out-loud...or both.

[Leading Through a Pandemic](#) Michael J. Dowling

2020-08-25 "A clarifying must-read in these uncertain times." —GOVERNOR ANDREW CUOMO Journey behind the front lines of the coronavirus pandemic with Northwell Health, New York's largest health system. What was it like at the epicenter, inside the health system that cared for more COVID-19 patients than any other in the United States? *Leading Through a Pandemic: The Inside Story of Lessons Learned about Innovation, Leadership, and Humanity During the COVID-19 Crisis* takes readers inside Northwell Health, New York's largest health system. From the C-suite to the front lines, the book reports on groundwork that positioned Northwell as uniquely prepared for the pandemic. Two decades ago, Northwell leaders began preparing for disasters—floods, hurricanes, blackouts, viruses, and more based on the belief that "bad things will happen and we have to be ready." Following a course highly unusual for an American health system, Northwell developed one of the most advanced non-government emergency response systems in the country. Northwell reached a point where leaders could confidently say "we are comfortable being uncomfortable in a crisis." But even with sustained preparation, the pandemic stands as a singularly humbling experience. *Leading*

Through a Pandemic offers guidance on how hospitals and health systems throughout the country can prepare more effectively for the next viral threat. The book includes dramatic stories from the front lines at the peak of the viral assault and lessons of what went well, and what did not. The authors draw upon the Northwell experience to prescribe changes in the health care system for next time. Beyond the obvious need for increased stockpiles of supplies and equipment is the far more challenging task of fundamentally changing the culture of American health care to embrace a more robust emergency response capability in hospitals and systems of all sizes across the nation. The book is a must read for health care professionals, policy-makers, journalists, and readers whose curiosity demands a deeper dive into the surreal realm of the coronavirus pandemic.

Burning Through the West Coast Paul DiSclafani
2020-10-28 Take a trip back in time (before political correctness ruined everything) with three guys from New York on a West Coast adventure in the summer of 1978. Join author Paul (Disco) DiSclafani, his cousin Sal (The Catman) and their friend Bruce (Mr. B) as he transports you back to those carefree days in the late '70's, recalling a zany but true trip as they burned their way through Southern California and Arizona. Stand next to them on the line as they use their New York attitudes to resolve car rental SNAFU's, lost luggage, and useless hotel room vouchers. Be part of The Tonight Show audience as Johnny burns them on National TV. Spend a couple of foggy days in Arizona for a visit with their crazy friends, Felix and Kozshekka, as a flood of biblical proportions strands them across the street from the airport. Travel down Arizona's Salt River with our inebriated heroes as they hold on for dear life when their lazy float turns into a white-water disaster. Experience the miracle of finding a bag of weed when they arrive in LA. Participate along with them in the "Pause that refreshes" every time they hear a Bruce Springsteen song Burning Through the West Coast

is a lighthearted romp, with original photographs from the trip and chapter illustrations by John Colquhoun, which will make you smile every time you turn the page. 6,000 Miles, 576 Beers, 4 states, 3 Guys from the East Coast, and a bag of weed. What could possibly go wrong? What people who have never read the book are saying: "Great, another book trying to imitate Fear and Loathing in Las Vegas..." - Hunter S. Thompson "To be honest, I don't remember these guys at all..." - Johnny Carson "They stole ice from me, those bastards!" - Burt "Slim" Perkins, owner of the Vagabond Motel "I never did get a Christmas Card from those guys." - Joanne Kowalski, Travel Agent What people who know Paul DiSclafani are saying: "My son and my nephew would never do any of those things! I bet it was that Bruce who tricked them into doing all those bad things. I knew he was a bad seed from the first day I met him." - Carmela DiSclafani, Paul's mother "My son? Your son was no angel, you know..." - Muriel Oeher, Bruce's mother "I've been wondering what happened to that steak for 42 years." - Paul's Aunt Jean (Sal's mother) "This book has been a real lifesaver. Without sports to watch during this COVID-19 pandemic, the writing of this book has kept my husband occupied and out of my hair. Best. Babysitter. Ever." - Barbara DiSclafani, Paul's wife "Two hundred pages and he mentions me in only two sentences..." - Tony DiSclafani, Paul's brother

Critique of Western Philosophy and Social Theory
D. Sprintzen 2009-12-07 The "existential" drama at the heart of the modern world is the result of a truly cataclysmic transformation in our institutions and modes of belief. It rivals in scope and significance, if it does not surpass, the transformation occasioned by the "Scientific Revolution" of the sixteenth and seventeenth century. Few can still doubt - even if they do not yet appreciate - the comprehensive and global scope of this "Second Scientific Revolution." Our fundamental modes of thought and action, institutional structure, personal identity, economic development, and relation to

nature, all require radical revision if human life on this planet (and beyond) is to survive and prosper. We are thus confronted with a world whose structures of meaning and corresponding institutional foundations are being undermined, thus presaging a revolutionary transformation. That transformation, however unclear at present, cannot fail to be radical and comprehensive. This work critically evaluates its nature, outlines the structures of an alternative world view and then develops the contours of the social and institutional order it suggests. It concludes with a discussion of practical strategies by which we may reasonably hope to meet the challenges confronting our civilization.

Is There Still Sex in the City? Candace Bushnell 2019-08-06 Twenty years after her sharp, seminal first book *Sex and the City* reshaped the landscape of pop culture and dating with its fly on the wall look at the mating rituals of the Manhattan elite, the trailblazing Candace Bushnell delivers a new book on the wilds and lows of sex and dating after fifty. Set between the Upper East Side of Manhattan and a country enclave known as The Village, *Is There Still Sex in the City?* follows a cohort of female friends—Sassy, Kitty, Queenie, Tilda Tia, Marilyn, and Candace—as they navigate the ever-modernizing phenomena of midlife dating and relationships. There’s “Cubbing,” in which a sensible older woman suddenly becomes the love interest of a much younger man, the “Mona Lisa”

Treatment—a vaginal restorative surgery often recommended to middle aged women, and what it’s really like to go on Tinder dates as a fifty-something divorcee. From the high highs (My New Boyfriend or MNBs) to the low lows (Middle Age Madness, or MAM cycles), Bushnell illustrates with humor and acuity today’s relationship landscape and the types that roam it. Drawing from her own experience, in *Is There Still Sex in the City?* Bushnell spins a smart, lively satirical story of love and life from all angles—marriage and children, divorce and bereavement, as well as the very real pressures on women to maintain their youth and have it all. This

is an indispensable companion to one of the most revolutionary dating books of the twentieth century from one of our most important social commentators.

PR for Anyone Christina Daves 2014-01-01 Small business owners have limited resources and often forego publicity, which is vital for establishing credibility in their industry. Appearing in the media gives the business owner a third party endorsement and can be influential in gaining new clients and customers.

The Blessing of Animals Lauraine Snelling 2020-06-11 *The Blessing of Animals* is a collection of short stories written by Lauraine, some fiction, some personal experiences gathered through her years of living and writing. A lover of animals of most kinds, in these stories you will meet, Polly, her first pony, Silver, an old white horse who has trained many kids about riding and handling a horse, dogs who've made people's lives richer and in some instances, saved lives. While readers find animals in all her books, these stories continue the tradition. Award-winning and best selling author Lauraine Snelling began living her dream to be a writer with her first published book for young adult readers, *Tragedy on the Toutle*, in 1982. She has since continued writing more horse books for young girls, adding historical and contemporary fiction and nonfiction for adults and young readers to her repertoire. All told, she has over 100 books in print with five Million copies sold. Shown in her contemporary romances and women's fiction, a hallmark of Lauraine's style is writing about real issues of forgiveness, loss, domestic violence, and cancer within a compelling story. Her work has been translated into Norwegian, Danish, and German, and she has won the Romantic Times Career Achievement award for Inspirational Fiction, the Silver Angel Award for *An Untamed Land* and a Romance Writers of America Golden Heart for *Song of Laughter*. As a sought after speaker, Lauraine encourages others to find their gifts and live their lives with humor and joy. Her

readers clamor for more books more often, and Lauraine would like to comply ... if only her paintbrushes and easel didn't call quite so loudly. Lauraine and her husband, Wayne, have two grown sons, and live in the Tehachapi Mountains with a watchdog Basset named Annie. They love to travel, most especially in their forty-foot motor coach, which they affectionately deem "a work in progress".

The Magical Flower Katerina Bernius Bernius 2020-12-08 Katerina, Keira, and Erin are best friends who planted flowers together in the spring. One seed started to glow, and they figured it must be a magical flower! But when it dies in the winter, the friends don't have any more flowers to play with.
